PROFILE

I am a highly curious person with a strong passion for learning, especially within the world of computing. I'm driven to solve complex problems, seeking out challenges that push my skills and understanding further. While I currently have no major achievements, I am excited to make meaningful contributions as I grow in my career.

I hope to work in a company that values and rewards hard work and commitment, and to collaborate with a team that shares a unified vision. Outside of work, I enjoy having fun, listening to music, and cooking in my free time.

My skills

- My focus is on mastering core programming concepts rather than any single language, enabling me to quickly adapt to new languages and frameworks, regardless of complexity. A complete list of my current skills is included at the end of my CV.

EXPERIENCE

Lhims Administrator Senior Level It Manager

 Aug 2022 - Aug 2023

Tongo District Hospital | Bolgatanga, Ghana

As an administrator the following roles were assigned to me:

- Monitoring day-to-day activities on LHIMS.
- Report generation on the LHIMS.
- Ghana health insurance service update on LHIMS.
- Retraining sessions for nurses, doctors and administration offices on the use of LHIMS.
- The creation of new diagnosis, procedures and medicines not covered under health insurance.
- Ready to assist when called to any department

Volunteer Teacher

 Apr 2022 - Jun 2023

Bolgatanga Technical Institute | Bolgatanga, Ghana

I was a computer system instructor on the following areas:

- Computer software installation: Teaching students how to install basic software like Microsoft office suit, AutoCAD architecture softwares, and others
- Computer hardware: I taught students on the various parts of the computer and the role they play in the overall functionality of the computer.
